

Questions & Answers

Q1. Who is conject?

conject, an internationally operating software and consultancy company with over twenty-five years of experience, is a pioneer in providing management software for the real estate and construction industries. With conject's German engineering excellence, even the most complex of international projects with hundreds of participants can be efficiently and effectively managed. The company is globally positioned with three offices in Germany – including the headquarters in Munich – and worldwide offices in Boston (USA), Dubai (UAE), the Hague (NL), St. Petersburg (RUS) and Vienna (AT).

Q2. How did the company grow?

conject was founded as a product company focusing on project management tools required by real estate and construction professionals to develop their projects efficiently. conject acquired a total of three companies throughout its early years. Through these acquisitions as well as internal growth, conject developed into become a unique and complete end-to-end solution provider for the real estate and construction industries.

Q3. What does conject do and what is your benefit?

conject provides software and consulting to maximise the speed, efficiency and long-term returns of real estate projects. conject delivers on all aspects of Infrastructure Lifecycle Management (ILM), covering all core processes from construction planning and building to operating (CAFM), selling and marketing. conject connects continents by bringing users and decision makers together on an on-demand web-based platform to optimise sales, project and cost management. Clients are reassured of transparency in their projects, save time and subsequently money.

Q4. How is conject different from its competitors?

Unlike other software providers, conject offers a complete turnkey solution for the entire Infrastructure Lifecycle Management (ILM). conject is not focused on just one phase but covers project, commercial and facility management.

Q5. How can the Middle East benefit from conject's products and services?

The real estate and construction industries have undoubtedly progressed quite rapidly to the extent that hundreds of new projects start daily. conject's complete solution helps clients operate and manage their real estate projects within the defined scope, time, and budget.

Q6. Who uses conject in the Middle East?

Since its establishment, over 3,000 corporate customers and 60,000 users rely on conject with an increasing number of flagship projects for major corporations such as Dubai World Central, 1st Qatar, Millennium Development International, Adidas Middle East, Daimler Chrysler, BMW, IKEA and Mercedes. conject's efficient and effective technology solutions allows its customers ample time to market dynamically.

Q7. Who can I call for further information?
